

## User Instructions for Safechoice OdorOut

1. Prior to treatment, ensure the area is thoroughly clean and the source of the odor is removed.
2. Apply Safechoice OdorOut using a low-pressure sprayer. Focus on areas and surfaces prone to absorbing smells, such as textiles, carpets, roofs in vehicles, concrete, and painted materials. Avoid spraying surfaces that do not absorb water, e.g. mirrors, windows, plastic, and leather.
3. If Safechoice OdorOut is applied to an unwanted surface, such as glass, leather, plastic, etc., simply wipe off with a microfiber cloth before drying to avoid risk of staining.
4. Let dry for 30-60 minutes. Once dry it's safe for both pets and children! Again, to avoid any residue or staining, wipe off any excess liquid using a microfiber cloth from unwanted or sensitive surfaces.

### DOSAGE AND EFFECT

Cover the area gently (coverage is roughly 350-500 sq. ft./gal., depending on the surface). The odor eliminating effect of Safechoice OdorOut is almost immediate, i.e. the odor is eliminated within minutes, and typically lasts for a few days up to several weeks depending on conditions. Sometimes it is necessary to repeat treatment for best result. Before use, read safety data sheet, available at [www.afmsafe-coat.com](http://www.afmsafe-coat.com).

Manufactured in Sweden by Prebona, for AFM ([www.prebona.com](http://www.prebona.com))

**Look Like  
Your Odor  
Problem?**

## Nicotine, fire damage and pet urine contamination are big problems.

This is true whether you're sensitive to the odors or not. Most people are and everyone wants a simple long lasting solution.

The popular "eliminators"- fragrance masking agents, enzyme and active carbon have short term limited effect.

Safechoice OdorOut has been proven many times more effective than these conventional products.

### Safechoice OdorOut - Eliminate Odors Instantly

- VOC free & completely environmentally friendly
- Harmless to pets & infants when dry
- Effective against a variety of odors: fire and cigarette smoke, urine, cannabis smoke, food waste, mold and body odors.
- Breaks down and eliminates foul smelling molecules at their source and it is very cost effective as it lasts for weeks even months.

## How OdorOut Works

Safechoice OdorOut relies on a patented technology based on colloidal silica, the main ingredient in sand, modified with ions with well-established anti-odor properties.

OdorOut removes odors extremely efficiently in a three step process:

1. Odor molecules are released from a smelly source
2. Safechoice OdorOut captures odor molecules (patented technology)
3. Eliminates or transforms odor molecules into odorless molecules

"We have used Safechoice OdorOut in our rental cars and are getting really good results. It quickly makes cigarette smell disappear completely. Compared to what we have used before, OdorOut eliminates the smell and the result lasts. It appears to be an amazing product!"

John, Car Rental Agency Owner

"I'm very glad that we could remove the smell from the litter box so quickly, so the house could be shown without delay. The viewing went very well and the sale of the house a short moment after."

Andreas Johansson, home owner.

"We were quite convinced of the function of the product before we started the project, but that the effect would be so significant and effective was astonishing,"

Roger Stromberg  
Project Manager Disaster Renovation Company

"Hi! Wow what a difference. No smoke odor. Amazing. Thank you."

Jessica, apartment building tenant

"Odor in public restrooms is removed with Safechoice OdorOut."

Facilities Maintenance Division Supervisor,  
City of Carmel by the Sea.

"The smell disappeared immediately after the treatment and the bathroom has been odor free for two months since the treatment. Both pupils and employees have noticed a great improvement the air quality in the bathrooms."

Hans Jörgen Brenöe, caretaker Nordsjällands elementary school
